

# Craig Redmond's Challenge

*Join us and be a catalyst for change*

**Relief International's work has never been more crucial. With people in need of aid at a record high, an unprecedented 100 million people forced from their homes, and global funding for many communities facing crisis decreasing, your support has never mattered more.**

My challenge is to raise US\$1 million to advance our work across the globe. I invite you to become a Council Member, joining a distinguished group at the heart of our life-saving work, and unite with us in taking forward our ambitious mission – serving communities at risk as they face the triple threats of conflict, climate change and displacement.
