Relief International partners with communities impacted by conflict, climate change, and disaster to save lives, build greater resilience, and promote long-term health and wellbeing.

**WHAT WE DO**

**CRISIS**
People living in fragile settings face complex, interconnected, and deep-rooted crises, increasingly accelerated by climate change and conflict.

**RESPONSE**
Working in partnership with local actors on humanitarian response, we focus first on critical health needs.

**RESILIENCE**
As communities recover, a combined focus on health and wellbeing helps reweave the social fabric, a network essential for preparedness and ultimately greater resilience.

**CORE CAPACITIES**

- **Safe**
  We ensure that affected communities have access to safe and inclusive programming with an emphasis on protection.

- **Truly Local**
  We work alongside communities to build resilience. We do this through investments in local staff capacity and with leadership from local partners, organizations and institutions.

- **Going the Distance**
  We go above and beyond to ensure access to services in the hardest to reach areas amidst crisis, displacement and systems failure.

- **Conflict Sensitive**
  We support context appropriate and ethical programming in conflict zones and challenging political environments. Our work is underpinned by community acceptance and dynamic conflict analysis.

- **Climate Smart**
  We develop local capacity to prepare for and respond to climate shocks, with green, digital, and off grid solutions.

- **Evidence Based**
  We invest in learning and analysis. Sound evidence informs our actions, advocacy, and drives program quality, adaptation, and innovation.

**PARTNERSHIPS FOR GREATER RESILIENCE**

**Strengthened primary healthcare systems**
Create foundations for community resilience

**Mobile and outreach approaches**
Extend access and protection to remote areas

**Water, sanitation, and hygiene activities**
Meet basic and essential needs

**Community education and engagement**
Encourages social cohesion and behavior change

**Learning to earning pathways**
Integrate education and livelihoods programs
