## Our Work

Relief International specializes in relief and development programs that benefit people in acute distress. A registered non-profit in the US, UK, France and Belgium, our work targets those fragile countries or communities that suffer from recurrent man-made or natural crises that impede human development. We invest in four program sectors—Economic Opportunity, Education, Health and WASH (Water, Sanitation and Hygiene)—by supporting solutions that reinforce and improve upon existing in-country systems.

- **17** countries across the Middle East, Africa and Asia
- **6,000+** staff and auxiliary workers
- **90%** of every donation goes directly to the field

## Benefits of Membership

Patrons are leading supporters of Relief International's mission to serve vulnerable people in the Middle East, Africa and Asia whose lives have been disrupted by conflict or disaster. All contributions are tax-deductible in the United States and United Kingdom.

Patrons make an annual gift of \$1,000 or more, and enjoy privileged access to RI and its experts in the field.

- **Invitation to an annual event** with President & CEO Nancy Wilson in Washington, New York or London.
- Unlimited participation in **conference call briefings** with our field staff on breaking news events and development issues.
- Occasional **newsletters from our country teams and "situation reports" from the field** as crises unfold.
- **Recognition** on our website and in the Annual Report.

“The support we receive from Relief International has been life-changing. An attack during the war left me paralyzed. Because of this trauma, I fled Syria with my family and came to Turkey. RI's center gave me a wheelchair, which changed everything. The physical therapy and mental health counseling they provide us is helping to rebuild our lives. My daughter and I come for our appointments together.”
