Our Work

Relief International specializes in relief and development programs that help people living through crisis. A registered non-profit in the US, UK and France, our work targets fragile countries or communities that suffer from recurrent man-made or natural crises that impede human development. We focus on Health and nutrition as well as Economic Opportunity, Education and WASH (Water, Sanitation and Hygiene) by supporting solutions that reinforce and improve upon existing in-country systems.

- **14** countries across the Middle East, Africa and Asia
- **5000+** staff and auxiliary workers
- **90%** of every donation goes directly to the field

The Relief International Council

The Council comprises our leading donors whose generous donations help Relief International to respond rapidly to breaking crises and urgent development challenges. To show our gratitude, we offer members of this group exclusive access to the organization and our country program experts.

Members are invited to engage in substantive exchanges with our teams as they confront fast-moving humanitarian emergencies. They also receive invitations to members-only events and periodic special communications from our country program staff. At the highest levels, Council members are invited to travel to our program sites with Relief International experts. Donations are tax-deductible in the United States, United Kingdom and France.

“*The positive impact RI has on the lives of people in truly urgent situations is remarkable. In my travels with their experts to fragile countries, I have seen first-hand that their interventions are efficient, effective and sustainable. It’s an honor to serve on their Board and to associate our family’s philanthropy with this important work.*”
